BACKGROUND

This year we are going to welcoming ASEAN Economic Community (AEC). One of integration in ASEAN is on human resources of health which impacts specifically in the quality standard for the health professions among ASEAN countries. Health professions education plays important role to shape the quality product that meet the international standard, in this case is ASEAN region. The strategic actions need to be planned to implement Mutual Recognition Agreement (MRA) responding the AEC challenge either by the government, education institutions, or educators. Enhancing comprehension about AEC, MRA, the role of stakeholders, and strategies to implement in the field of health professions are subjects to be achieved through this event.

AIMS

- To facilitate collaboration among health professions education institutions in ASEAN
- To disseminate information about needs and demands of health professions in ASEAN and the strategic movements.
- To disseminate information about ASEAN health professional qualification, MRA, and its implementation
- To disseminate information about the impact of globalization on accreditation and the impact of accreditation on migration of health professions
- To recommend required policies and strategies in health professions education to respond to AEC.
- To formulate recommendations on the competencies of health professions and various academic levels of each professions.
- To strengthen the quality of health professions education institutions

TARGETS

- Relevant authorities dealing with health professions education in ASEAN
- Association of Medical and Health Professions Education institutions in ASEAN
- Medical and Health Professions Education institutions in ASEAN.
